

MODEL 686

The Standard by which other revolvers are measured.

Originally introduced in 1981 as the “Distinguished Combat Magnum®”, the S&W® Model 686 has proven it’s worth to competitive shooters, law enforcement agencies, hunters, and recreational shooters. Built on the strong S&W “L” frame, the Model 686 can take the constant pounding of modern magnum ammunition long after other revolvers fail. Available in both 6 and 7 shot variations, with a wide variety of standard or ported barrels, the Model 686 is truly the standard by which competitive revolvers are measured.

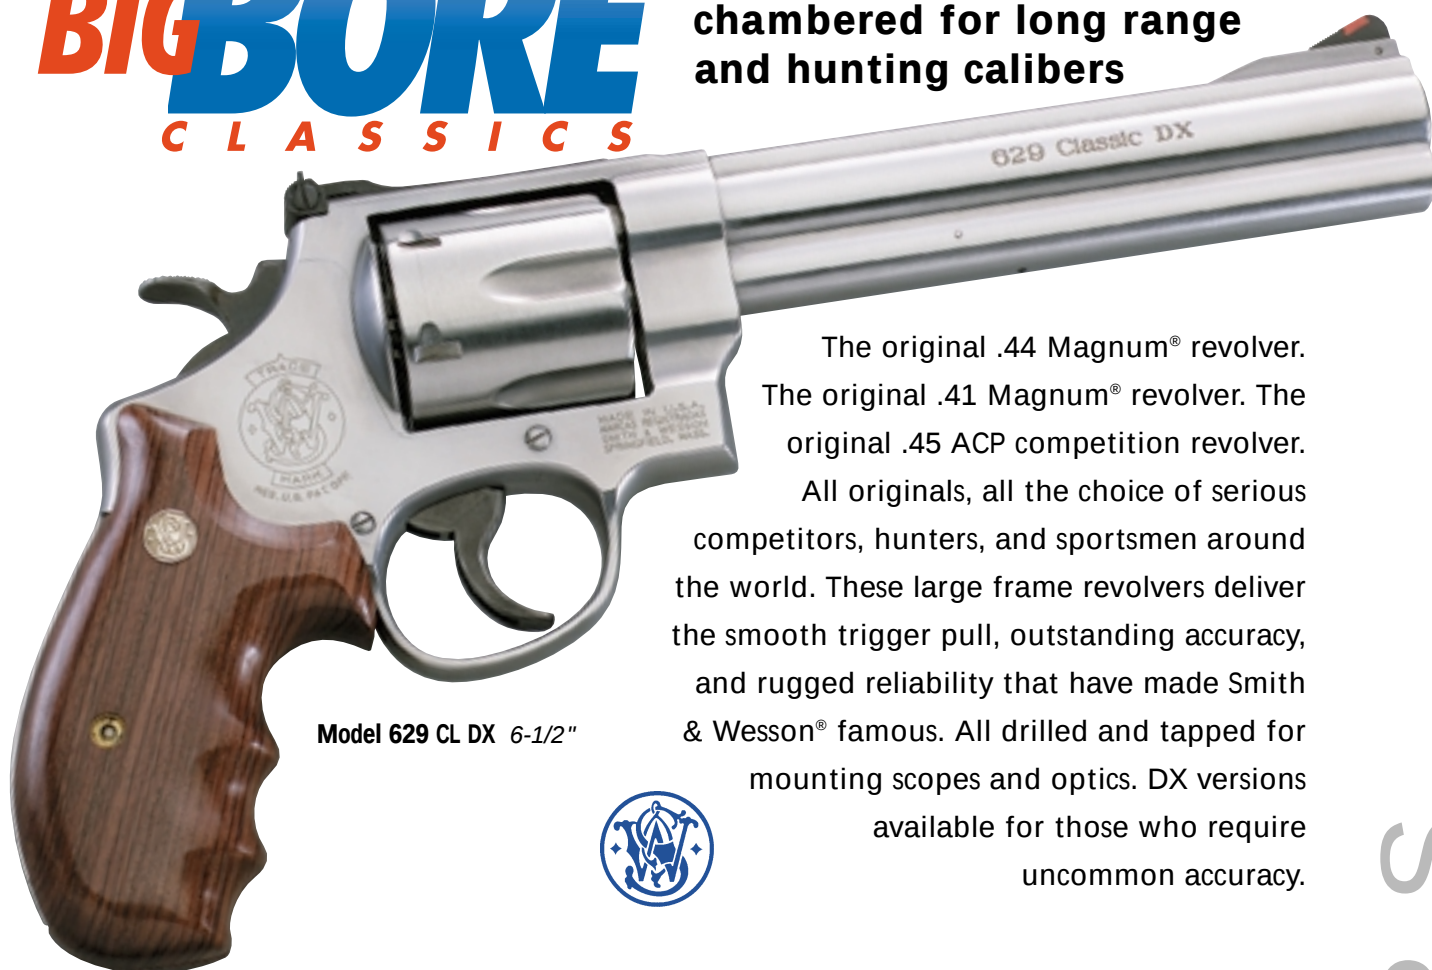

Model 686 6"

REVOLVERS

Performance Center

Highly specialized pistols and revolvers made by the finest gunsmiths

The Smith & Wesson Performance Center® delivers the best value in high performance handguns available today. Performance Center handguns are designed and built to meet the highest expectations of the demanding shooter.

Pistol features include hand-fit titanium coated barrel bushings and hand-fit slide stops for superior accuracy, hand-throated barrels for smooth feeding and extraction, and polished and honed parts for a smooth, performance-tuned action.

Revolver shooters enjoy the same attention to detail in specially designed barrels with adjustable weights, porting to reduce muzzle jump, adjustable trigger stops, ball detent lock-up and the ultimate in crisp single action and smooth double action expected from Smith & Wesson®.

Smith & Wesson Academy

Field School Programs offer Worldwide Training

As a proven leader in professional Law Enforcement and Armorer training, the Smith & Wesson Academy has been bringing law enforcement officers quality, up-to-date instruction for almost 50 years. As a result of this success, the Academy has expanded its programs to fulfill global needs more effectively with the Smith & Wesson Academy Field School Program.

This program is designed to bring quality training and instruction to you in your country and your facility. The program includes most standard Academy courses and will customize courses to meet your agency's specific needs.

In the event your agency can't host a field school, you can still attend one. The Smith & Wesson Academy has a list of school locations and dates available. You can also view the list on our internet site at: www.smith-wesson.com/academy. Click on "Field Schools" for access to our Field Schools Schedule.

The facility requirement for Smith & Wesson Academy Field School courses may be less demanding than you think. Give us a call to discuss the course you have in mind. Chances are that your range and classroom are more than adequate.

Courses may be conducted on a tuition-per-student basis or under contract. On a contract basis, a fee is quoted for the host agency on an individual basis.

For inquiries or to answer questions on hosting a field school, call our administrative offices at **(413) 846.6461**.

Smith & Wesson® Mountain Bicycles

The Smith & Wesson Custom Bike Shop provides a quality line of bicycles and accessories designed specifically for the law enforcement professional and available to the general public. Each custom bike is built by hand in Springfield, MA USA, using components selected to suit each customer's specific needs for comfort, performance and reliability. Bicycles and accessories are shipped fully assembled and ready to ride.

Integrated Information Systems

Software solutions to assist the world's law enforcement agencies. Products include Identi-Kit 2000, PD2000, EBS and ASID. Identi-Kit 2000 is used by police worldwide to quickly create a electronic composite of a possible criminal suspect based on a victim's or witness's description.

PD2000 is comprehensive software created to assist with routine police processes and consists of 3 individual suites of administrative, training, and investigative applications. EBS

(Electronic Booking System) is a stand alone digital booking system designed to facilitate the complete booking process. And last, ASID (Advanced Suspect Identification Database) is the integration of recognition technology with existing technologies utilizing a common search engine to rapidly search a regional networked database of digital booking photos.

Apparel & Accessories

Since 1852, Smith & Wesson has meant quality and value to customers worldwide. Today, that same heritage extends to our extensive collection of authentic trademark apparel and accessories.

Specialty Services

Today Smith & Wesson is one of the most modern manufacturing facilities in the world when it comes to metal working and production. Processes offered include forging, cutting, drilling, CNC contract manufacturing, and heat treat services. Specialty Services now offers these processes and services to other industries, with over 350 currently using the unique capabilities found at Smith & Wesson®.

Custom Engraving

Throughout its nearly 150 years, Smith & Wesson® has employed the finest metal artisans, leaving a legacy of artwork covering our complete history. Master engravers have always worked to provide the most striking personalized designs of hunting scenes, emblems and inscriptions, or work to develop customized engraving for you.

Laser Engraving

LaserSmith engraving is quick and affordable. Choose from scrollwork, lettering and wildlife motifs. Laser engraving can be done on any carbon or stainless steel component of your Smith & Wesson handgun.
