MILLENNIUM™

## SAFETY NO ONE ELSE HAS

**PT140B**  
Blue Steel Slide  
Black Polymer Frame  
.40, S&W, 10+1 Capacity

Try to find another .40 S&W pistol with more features and less weight. This is truly the polymer-frame pistol offering everything. Big-bore stopping power, pocket-size dimensions, snag-

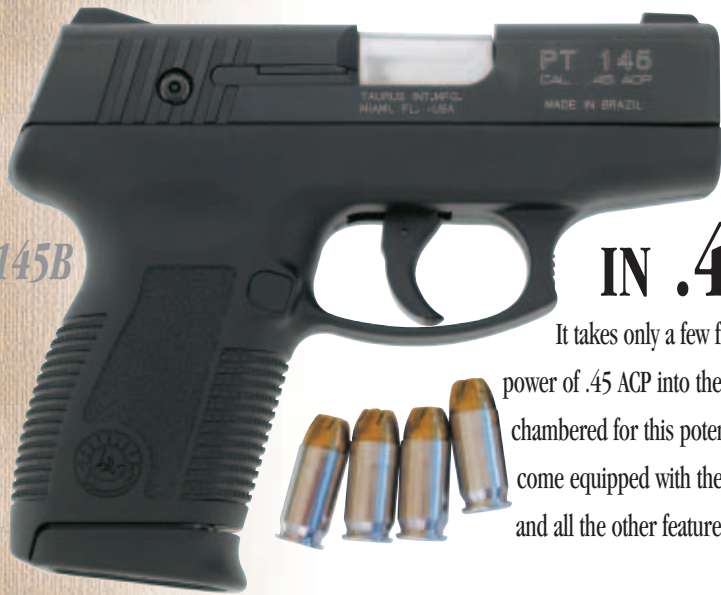

**PT140SS**

Available with Night Sights

resistant configuration, safe and reliable DAO operation, quick and easy takedown, plus a manual safety when you need one. In your choice of Stainless or Blue Steel slide, we challenge anyone to top this package!

**Double Action Only with Manual Safety**

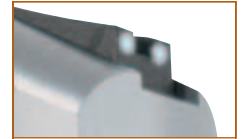

**PT145B**

## TAURUS MILLENNIUM IN .45 ACP

It takes only a few fractions of an inch here and there to put the respectable stopping power of .45 ACP into the Millennium frame, and now the Taurus Millennium is chambered for this potent self-protection round. The heftier Millennium will come equipped with the Taurus Security System, the side-mounted safety, and all the other features of the rest of the Millennium family of calibers.

Available with Night Sights

## THE TAURUS MILLENNIUM™ FEATURES THE UNIQUE TAURUS SECURITY SYSTEM™

The Millennium Features a Loaded Chamber Indicator.

The Taurus Millennium™ family of auto pistols features the Taurus Security System™, which provides instant-ready defense with built-in ability to secure your pistol and make it inoperable at the turn of a key. When the Security System is engaged, the Millennium cannot be fired, cocked, or disassembled, and the gun's manual safety cannot be disengaged. As with our revolver Security System, the device is part of the firearm and cannot be lost, and the same special Security Key works for both the revolver and pistol systems (two keys come with each gun).

System engaged - Button up.

## MILLENNIUM...10+1 CAPACITY IN AN ULTRA-COMPACT SIZE!

*Double Action  
Only with  
Manual Safety*

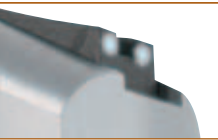

**PT111B**

**PT111SS**  
Matte Stainless Steel Slide  
Black Polymer Frame  
9mm, 10+1 Capacity

The double action only Taurus Millennium™ is available with either a Blue or Stainless Steel slide as well as night sights. The Model

*Available with Night Sights*

PT111 also comes with a Taurus Titanium slide on a black polymer frame for a 16 ounce package that we call a pound of prevention.

Another comfort to carry and have by your side. This .380 version of the Taurus Millennium™ fits well to the hand and weighs little more than a pound. The no-nonsense combat sights, tough construction and natural durability are derived from the original Taurus Millennium™

The affordable compact polymer frame you can trust with your life. A mere 18.7 ounces. Ten rounds in the magazine, one in the chamber, and the lightweight frame makes this lifesaver a must for law enforcement and anyone concerned about personal safety.

*Available with Night Sights*

**PT138SS**

*The Millennium Features a Loaded Chamber Indicator.*

Taurus' more than half a century of manufacturing have resulted in this superbly engineered pistol built to perform well for a lifetime and more.

**PT132B**

**PT132SS**  
Stainless Steel Slide  
Black Polymer Frame  
.32 Auto, 10+1 Capacity

The newest member of the Millennium family is the .32 Auto Model PT132, also available in either a Blue or Stainless Steel slide on a black polymer frame. And, like every Taurus, the Millennium carries the Taurus Unlimited Lifetime Repair Policy and the Taurus Security System for the extra peace of mind.

**Taurus Millennium...the future of polymer frame pistols is available right now.**
